

WELCOME TO THE PRESS CONFERENCE
„OPERA SINGERS IN DANGER“, AUGUST 16, 2013
ABOUT “COMET”

The Collegium Medicorum Theatri - CoMeT

The Collegium Medicorum Theatri (CoMeT) is an international association of ENT doctors who have dedicated themselves to the medical treatment and consultation of singers and musicians. Founded in 1969, the association is one of the first and foremost points of contact worldwide for artists looking for vocal specialists.

The medical voice specialists of CoMeT are familiar with the professional medical requirements of stages and theaters and are present in order to take care of the artist, his regeneration as well as his vocal fitness during performances.

CoMeT specialists can provide assistance to the health of artists with a wide variety of instruments and methods: voice rest, medication, voice and vocal coaching, inhalation therapy, mediation with the directorship concerning the adjustment of rehearsal and performance schedules – all for the benefit of the singer, actor or artist.
